

Sureprint Hand Benches.

Sureprint have developed a range of hand benches over a number of years and manufacture one of the best screen printing benches available. Each machine is sturdily built and requires almost no maintenance requirements other than a light oiling. The benches are light and easy to use. Each machine is fitted with an aluminium suction base, with a strong vacuum. Adjustable side arms fitted with toggle clamps allow any size frame to be fitted up to the maximum frame size of the master frame. A light and easy to handle one arm with shackle with counter balance makes light work of printing.

A range of standard sizes are available, but any size can be made to handle any size print job.

Features.
